PROFESSIONAL SUMMARY

Cybersecurity-specialized engineering student with strong fundamentals in IT Support, Linux/Windows administration, and troubleshooting. Completed the Google IT Support Certificate with hands-on labs involving system configuration, file permissions, and user management. Cloud-ready with AWS (Basic–Intermediate) knowledge including IAM, EC2, S3, VPC, and Security Groups. Strong programmer with proficiency in Java, OOP, DSA, and DBMS, with working knowledge of Python, C++, JavaScript, and MySQL. Seeking internship opportunities in IT Support / Technical Support / Cybersecurity.

EDUCATION

Integrated M.Tech CSE (Cyber Security Specialization) — VIT Bhopal University | 2023 – Present

12th — Sankalp Public School, Bhopal | 2022 | 75%

10th — Jyoti Senior Secondary School, Rewa | 2020 | 85%

CERTIFICATIONS

- Google IT Support Certificate — Google Career Certificates | Issued Jan 2026 | Verification: <https://www.credly.com/go/iYF7YEdX>
- Python Essential — Vityarthi | Nov 2023 – Dec 2023

TECHNICAL SKILLS

- Programming: Java, Python, C++
- Web: HTML, CSS, JavaScript
- Database: MySQL
- Operating Systems: Linux, Windows
- Cloud: AWS (Basic–Intermediate) — IAM, EC2, S3, VPC, Security Groups

- Tools: VS Code, Command Line (Bash)

Core Concepts: OOP, Data Structures & Algorithms, DBMS, OS Basics, Networking Fundamentals

HANDS-ON PRACTICAL EXPERIENCE (LABS)

- Performed Linux and Windows troubleshooting tasks including process management, system performance checks, and basic optimization.
- Managed file and folder permissions using chmod/chown and practiced access-control concepts.
- Executed administrative tasks such as account management, session control, and configuration activities.
- Practiced helpdesk-style workflow: identify issue → diagnose → fix → validate → document.

AWS Cloud Hands-on:

- Configured identity and access management using IAM (users, roles, policies, permission basics).
- Launched and managed EC2 instances and configured Security Groups for inbound/outbound rules.
- Worked with S3 buckets for storage operations and access control fundamentals.
- Understood cloud networking using VPC fundamentals and security group concepts.

RELEVANT COURSEWORK

- Cyber Security Fundamentals
- Operating Systems
- Computer Networks
- Database Management Systems (DBMS)
- Object-Oriented Programming
- Data Structures & Algorithms

SOFT SKILLS

- Problem Solving & Debugging
- Communication & Teamwork
- Documentation mindset
- Customer support attitude (helpdesk-ready)

ADDITIONAL

Languages: English

Interests: Cybersecurity tools, system troubleshooting, book writing
